Introduction

Symbiotics Ltd has developed ADAPT Online as a unique assessment tool that can support various training systems. The purpose of this tool is to find out if you are right for a job and then to offer guidance to help you develop your skills to match those that are needed. Our aims are to get the best from you and make sure that you get the most out of your training.

There a number of elements that can make up the ADAPT Online package and you will be required to complete a combination of the following elements:

ADAPT Personality Questionnaire (APQ)
Cognitive
Maths
Physics
Physical Assessment Stage (FAST)

Please contact the organization that has requested you complete the assessment for any further details.

Data Protection

Symbiotics Ltd will only collect and store personnel information relating to and pertaining to you for 24 months, as requested by Symbiotics Ltd. At the end of this period Symbiotics Ltd will delete all record of you and either delete the data you supplied or will anonymise it. Either way no data in our system will be attributable to you after the retention period defined other than a copy of this introduction and your response.

The reason Symbiotics Ltd keeps data in an anonymised form is for verification purposes. Firstly, it allows Symbiotics Ltd to verify that the assessments are fair to all groups of people, and this is why we ask some questions about your background. This information is not used in the assessment but allows us to determine that the assessment is not prejudicial to a particular group of people. Secondly, it allows Symbiotics Ltd to confirm that the comparisons made within the system against the general population remain up to date.

The data you provide through the assessment process will be stored on Symbiotics Ltd secure computers located on our premises in the UK. The data will be used via determinist algorithms to provide Symbiotics Ltd with a report on how you have performed in the assessment tests

No other third party (other than if demanded by a UK court of law order) will have access to this report or the raw data you supply. Additionally, within Symbiotics Ltd only staff with a valid reason to process will have access to your data and this will be kept to a minimum number of people.

Updating and removal of your information

You have the right for incorrect, out of date or misleading information relating to you to be corrected.

You should email DataController@SymbioticsLtd.co.uk with your request and it will be actioned provided it is a legitimate request.

Right to be forgotten

You have the right to "be forgotten", the right to request that we stop processing your data and the right to object to the method by which we are processing your data.

All these requests should be made to DataController@SymbioticsLtd.co.uk who will inform Symbiotics Ltd of the request. These requests will be actioned provided a) we do not have a legal requirement to retain your data or b) Symbiotics Ltd has a contractual agreement with you that requires that we retain the data for the specified retention period.

If either of these are the case you will be notified of the reason why we cannot remove your data at this time.

1. Assessment: What Should I Expect?

1.1 Link to the ADAPT On-line Website

If you are to complete any element of the ADAPT On-line Assessment at home, you will be provided, by email, with your link to the ADAPT Website and a series of instructions that will enable you to access the ADAPT Login Screen.

1.2 Log In Screen

You will also be provided with a 20 digit alpha numeric licence number; this will either be provided to you directly or will be given to the Organisation to input on your behalf, depending on whether you are completing any elements at home prior to further invigilated tests. If you are provided with the code, please keep a note of this licence in case you should need to log in again.

To log in to the Assessment Tool, please click the link below or paste it into your browser:

<https://adapt2.symbioticsltd.co.uk/login>

We recommend you use Google Chrome and a std PC or laptop to access the assessments.
If your assessment includes the FAST test you will need a separate keyboard

The link will take you to the below screen. Please click on the “Got a licence code? [Register here](#)” link shown in below screenshot.

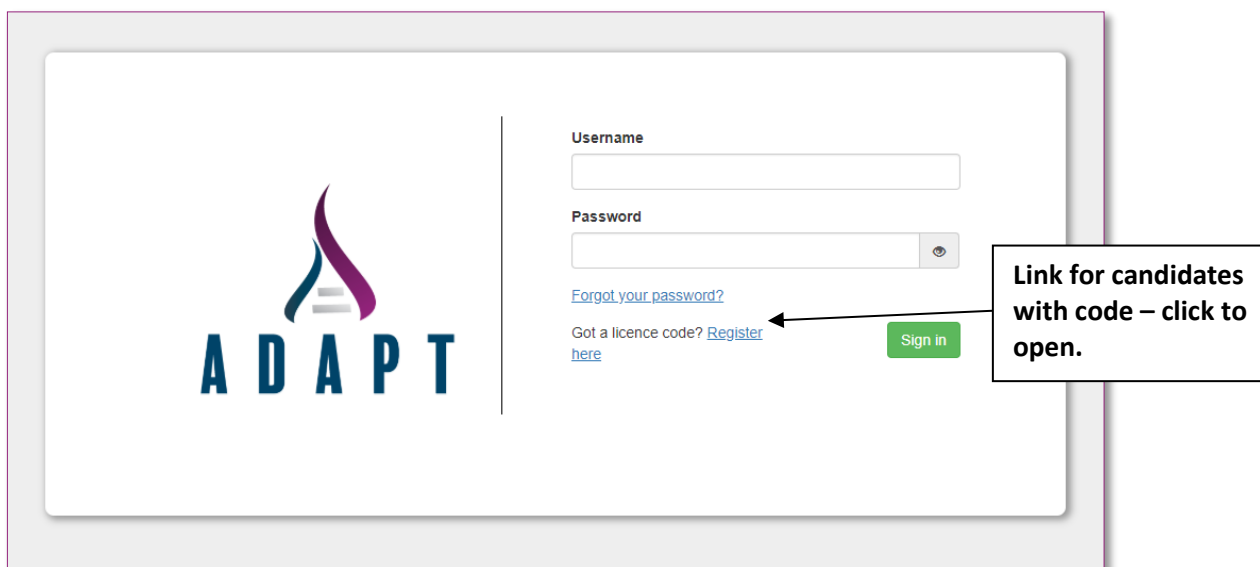

Figure 1: Adapt 2 Login Screen

Once you enter the registration area you will be required to enter you Licence code which we recommend you copy and paste in if possible and then follow the instructions as provided on each page. As part of the process when you enter your e-mail address you may separately be mailed with an additional activation code that you will need to enter at step 6 to confirm your acceptance of our data

protection policy or you will just be asked to confirm acceptance via a check box. If you are required to have an activation code to do this, you will require access to your e-mail to retrieve this additional code.

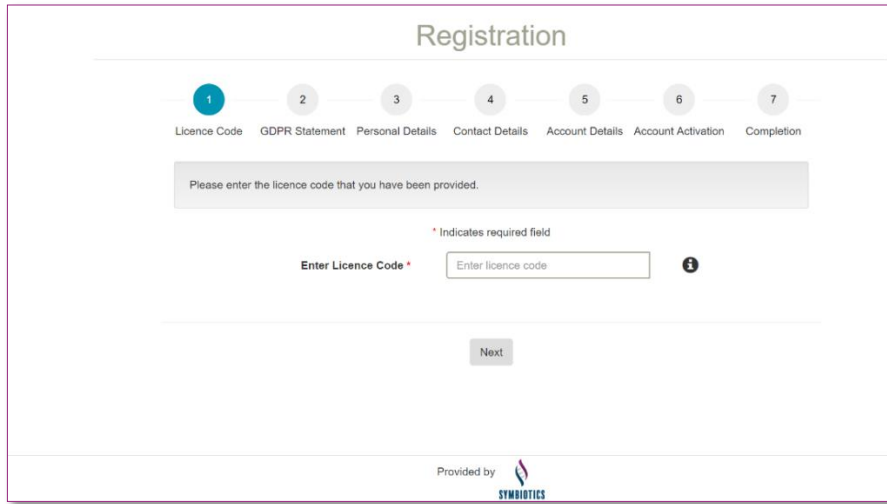

Figure 2: Opening Online Registration Screen

You will then proceed to a screen where you will read our General Data Protection policy and have to accept it.

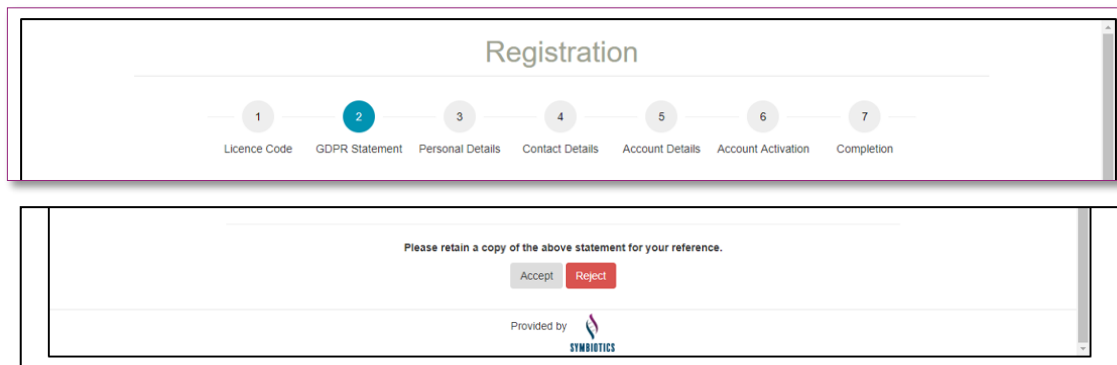

Figure 3: GDPR Acceptance

This will follow on to you needing to enter your personal details

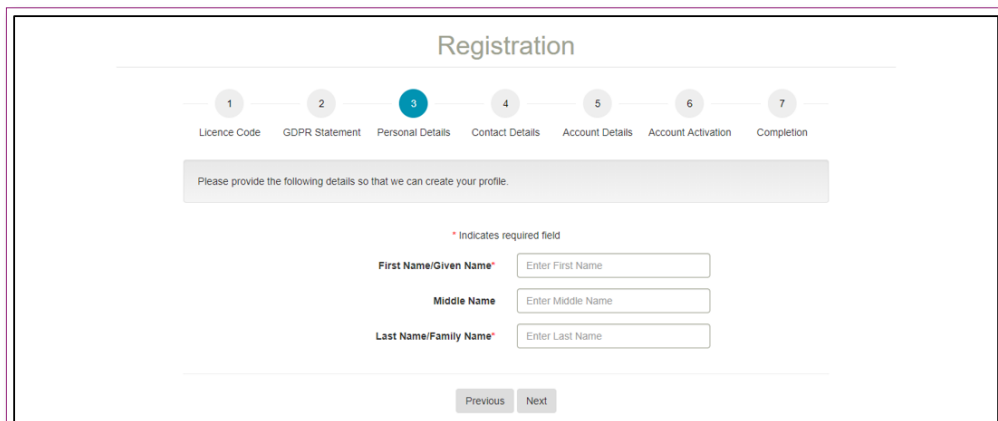

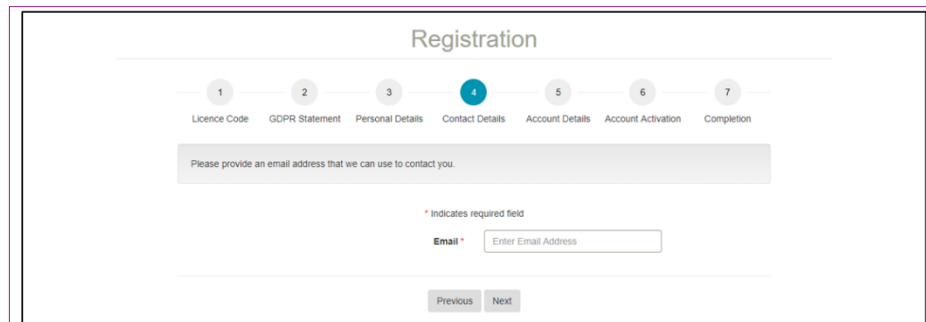

Figure 4: Personal Details Entry

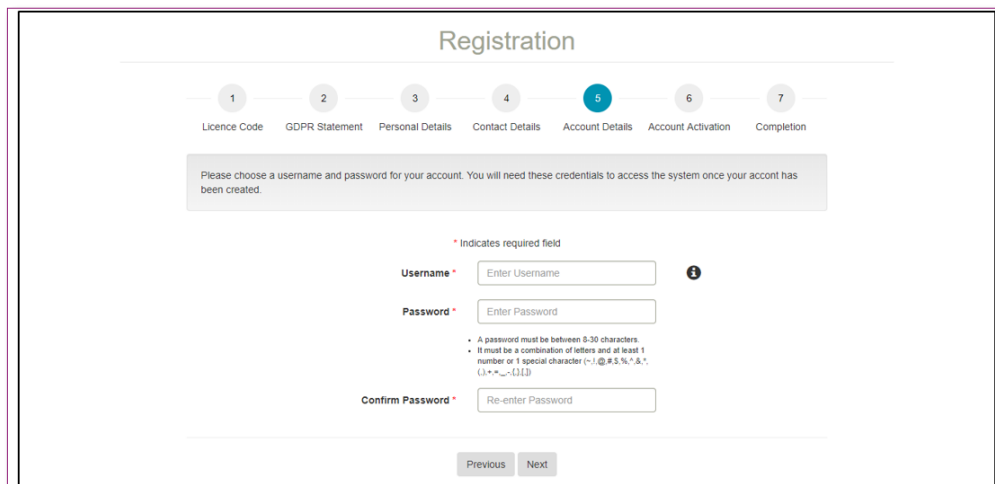

Which will lead on to a screen for you to enter your contact details

The screenshot shows a registration process with seven steps: 1. Licence Code, 2. GDPR Statement, 3. Personal Details, 4. Contact Details, 5. Account Details, 6. Account Activation, and 7. Completion. Step 4 is currently active. The main instruction is "Please provide an email address that we can use to contact you." Below this is a text input field labeled "Email" with a red asterisk indicating it is required. At the bottom are "Previous" and "Next" buttons.

Figure 5: Contact Details Entry

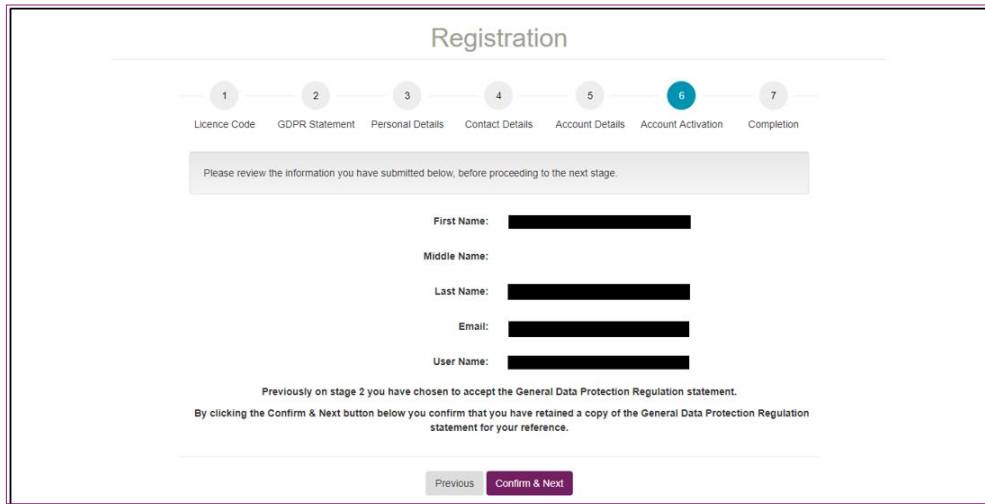

This will lead on to a screen where you set your account login information

The screenshot shows the registration process at step 5, "Account Details". The main instruction is "Please choose a username and password for your account. You will need these credentials to access the system once your account has been created." There are three input fields: "Username" (with a red asterisk and a character count of 3), "Password" (with a red asterisk and a character count of 8), and "Confirm Password" (with a red asterisk and a character count of 8). A legend indicates that an asterisk means "Indicates required field". Password requirements are listed: "A password must be between 8-30 characters" and "It must be a combination of letters and at least 1 number or 1 special character (-, !, @, #, %, ^, &, *, ., ~, _).". "Previous" and "Next" buttons are at the bottom.

Figure 6: Your Account Details Entry

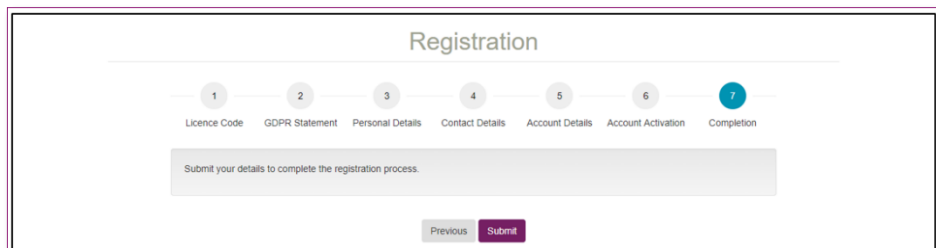

Then on to the account activation screen

The screenshot shows a registration progress bar with seven steps: 1. Licence Code, 2. GDPR Statement, 3. Personal Details, 4. Contact Details, 5. Account Details, 6. Account Activation (highlighted), and 7. Completion. Below the progress bar, a message reads: "Please review the information you have submitted below, before proceeding to the next stage." The form fields are: First Name, Middle Name, Last Name, Email, and User Name, all of which are redacted with black bars. A note states: "Previously on stage 2 you have chosen to accept the General Data Protection Regulation statement. By clicking the Confirm & Next button below you confirm that you have retained a copy of the General Data Protection Regulation statement for your reference." At the bottom, there are "Previous" and "Confirm & Next" buttons.

Figure 7: Activation of Your Account

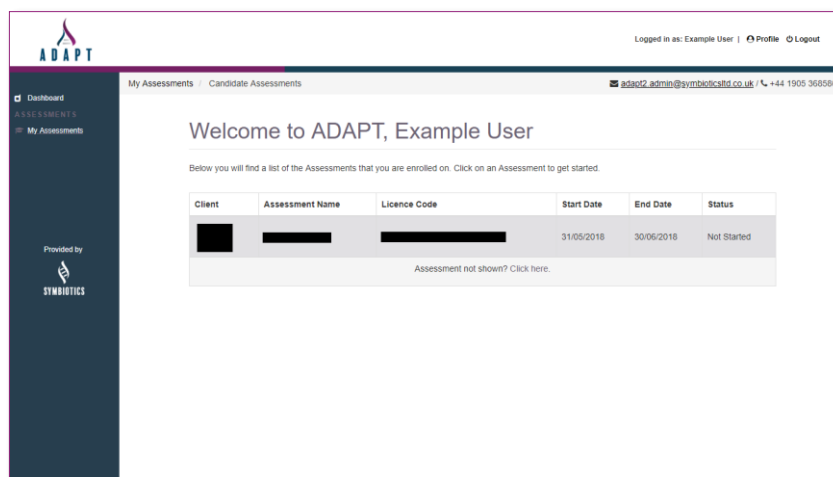

When you have completed all details click 'Submit' to continue.

The screenshot shows the registration progress bar with step 7, "Completion", highlighted. A message reads: "Submit your details to complete the registration process." Below the message are "Previous" and "Submit" buttons.

Figure 8: Registration Completion

A candidate assessment menu will appear.

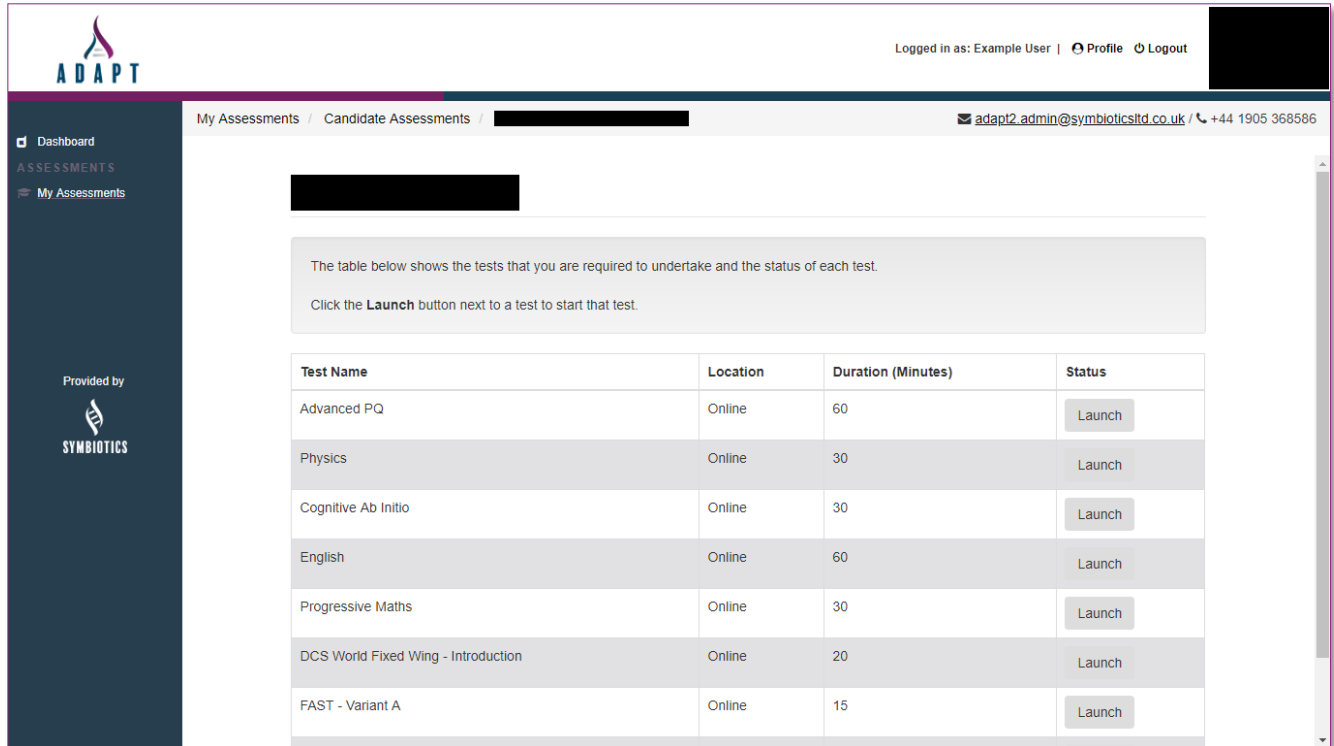

The screenshot shows a dashboard for ADAPT. The user is logged in as "Example User". The main content area displays "Welcome to ADAPT, Example User" and a message: "Below you will find a list of the Assessments that you are enrolled on. Click on an Assessment to get started." A table lists the assessments:

Client	Assessment Name	Licence Code	Start Date	End Date	Status
[Redacted]	[Redacted]	[Redacted]	31/05/2018	30/06/2018	Not Started

Below the table, it says "Assessment not shown? Click here."

Figure 9: Candidate Assessments Menu

The tests that you have been allocated will load. Click 'Launch' to receive the instructions for your first test.

The screenshot shows the ADAPT user interface. At the top, it says "Logged in as: Example User | Profile Logout". The breadcrumb trail is "My Assessments / Candidate Assessments / [redacted]". The email address is "adapt2.admin@sybioticsttd.co.uk" and the phone number is "+44 1905 368586". The left sidebar contains "Dashboard", "ASSESSMENTS", and "My Assessments". The main content area has a heading "[redacted]" and a text box stating: "The table below shows the tests that you are required to undertake and the status of each test. Click the **Launch** button next to a test to start that test."

Test Name	Location	Duration (Minutes)	Status
Advanced PQ	Online	60	Launch
Physics	Online	30	Launch
Cognitive Ab Initio	Online	30	Launch
English	Online	60	Launch
Progressive Maths	Online	30	Launch
DCS World Fixed Wing - Introduction	Online	20	Launch
FAST - Variant A	Online	15	Launch

Figure 10: List of Allocated Tests

2. ADAPT Personality Questionnaire (APQ)

2.1 Instructions

There is 1 personality questionnaire that must be completed – the ADAPT Personality Questionnaire (APQ). This looks at your personality, values, behaviour and attitude. The questionnaire can either be completed at the test centre, or before/after you attend the test centre. If you are not at the assessment centre you should do the APQ in a comfortable, quiet area with no distractions or interruptions. This stage has no time limit, but you should try to finish within 40-60 minutes, in 1 attempt.

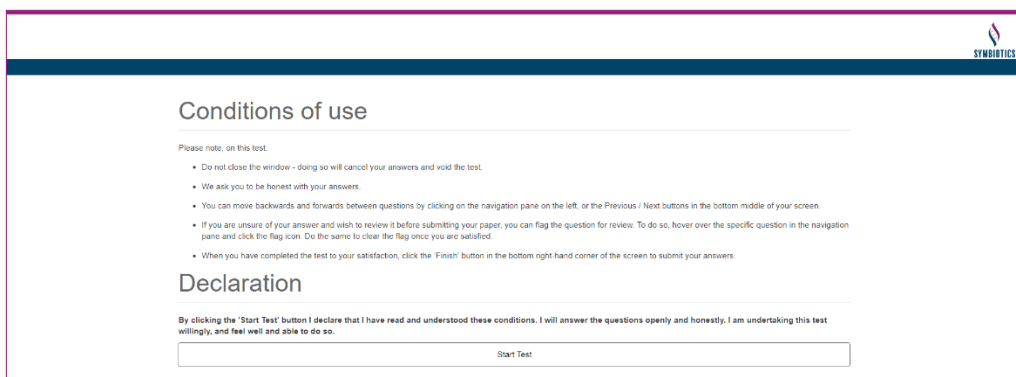

Figure 11: Conditions of use

A declaration is presented at the beginning of every test. Upon reading the conditions of use, click ‘start test’ to progress.

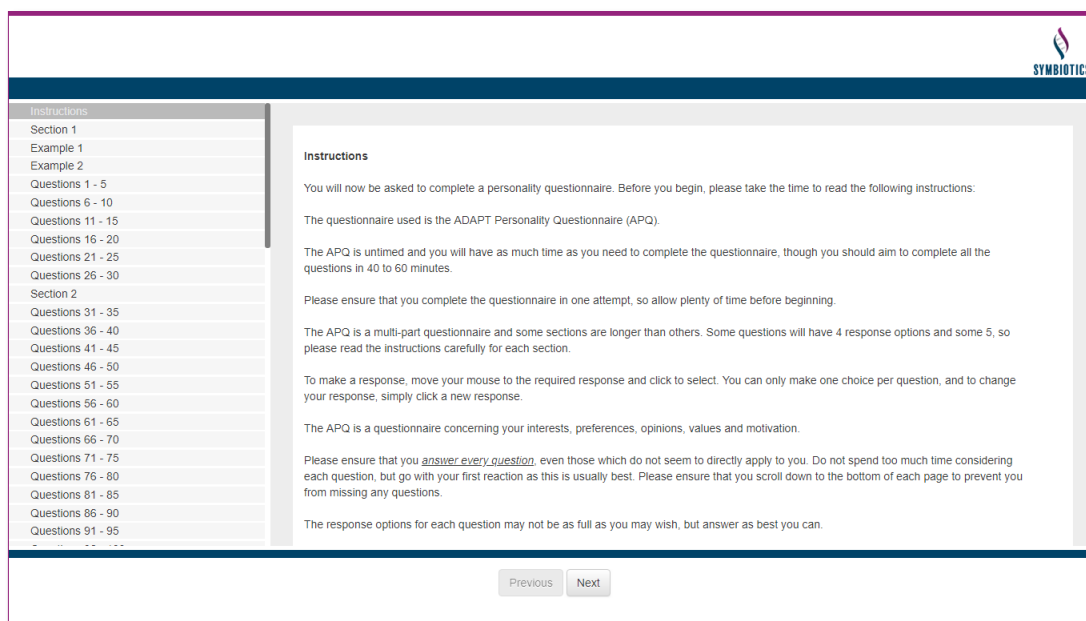

Figure 12: APQ Instruction Screen

The questionnaire is split in to 11 sections. The questions will change in length and there are 3 different question types, all of which have 4 multiple choice options:

2.1.1 Question Type 1

Read the question carefully and decide which of the two options most closely describes your opinion or preference - i.e. which option is 'more like me'. Then select the option that most accurately describes how strong this preference is - a moderate preference or a strong preference.

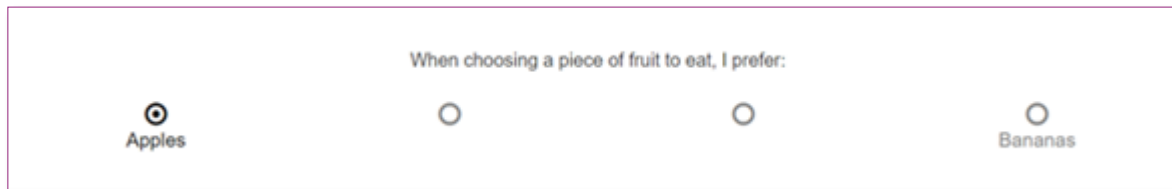

Figure 13: APQ Question Type 1

2.1.2 Question Type 2

Read the question carefully and then select the option that most accurately describes your opinion or preference – strongly agree, agree, disagree or strongly disagree:

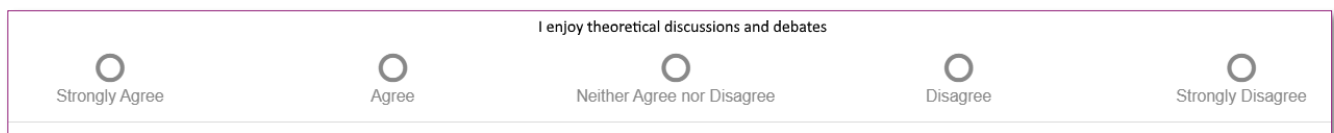

Figure 14: APQ Question Type 2

2.1.3 Question Type 3

Read the question carefully and then select the one option that most accurately describes your opinion or preference:

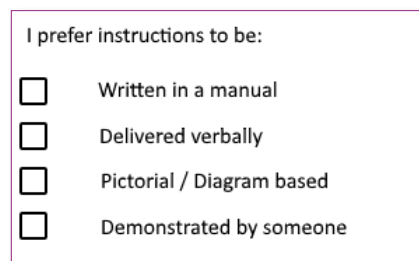

Figure 15: APQ Question Type 3

You will answer questions on a range of topics, including your interests, preferences and opinions. There are no right or wrong answers. To assess your personality to the highest standard, we need to get the correct information about you. Therefore, you should be totally honest when answering the questionnaire.

Do not spend too long thinking about each question – your first reaction is usually the best. The information given may not be as detailed as you want, but answer the best you can. Be as honest and truthful as you can. Do not give an answer just because it seems like the right thing to say.

Please ask the assessor or examiner if you do not understand any of the words used in the questions.

An example of the layout of the APQ questions is shown below:

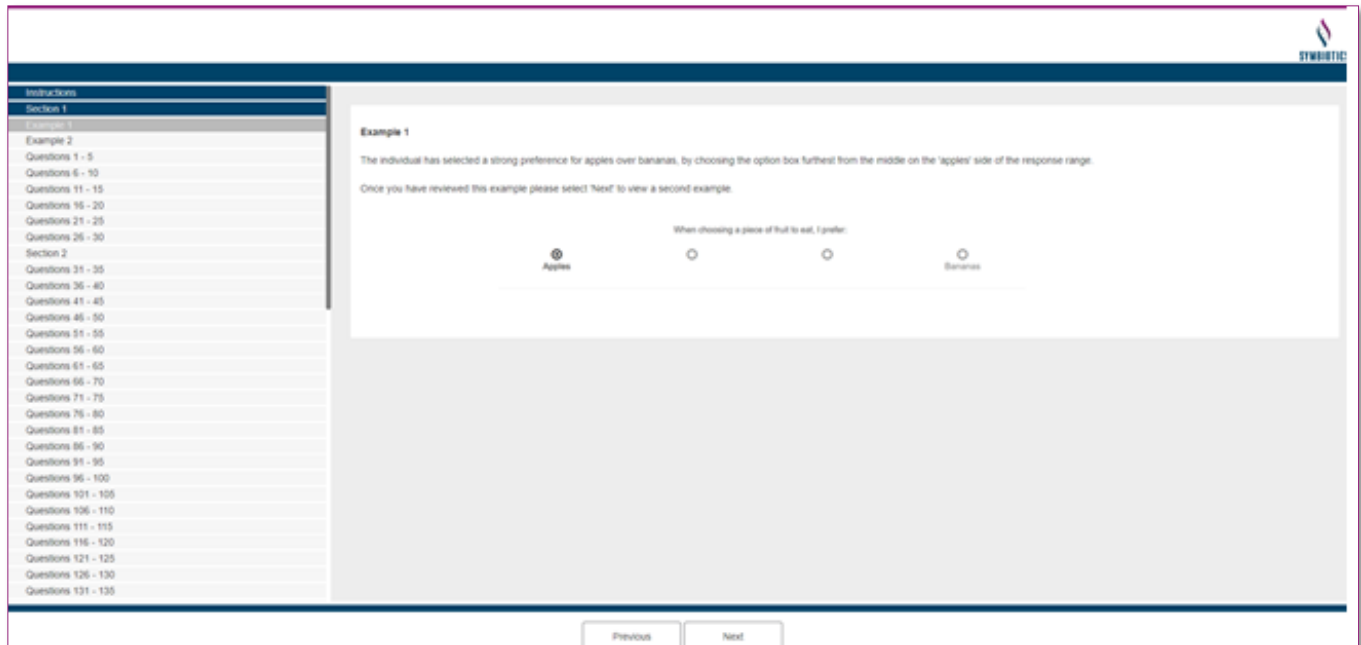

Figure 16: Example of APQ Question Layout

Your answers will be saved at the end of each page, so you can come back and carry on with the questionnaire if you get disconnected. You can go back and change any answers once you have pressed 'next'. You need to answer all questions in all sections. You will not be allowed to finish the questionnaire until all the questions are answered. The left hand bar on the screen will show you how many questions are still to be answered on the page and how many pages are left to complete as well as the number of answers required to complete the page.

The 'finish' button will **only** activate once all questions on all pages have been answered.

3. Mathematics Stage

3.1 Instructions

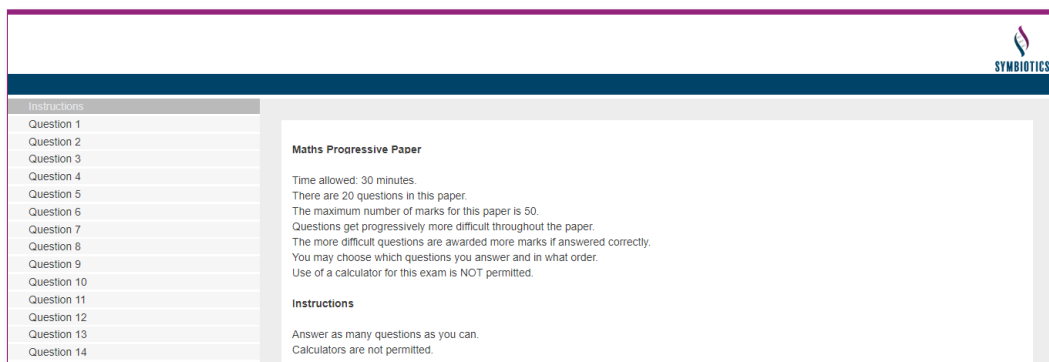

Figure 17: Mathematics Instructions Screen

Read the instructions carefully before you click 'next' to start the test. The test is 30 minutes long and the timer will commence when you start the test. Click 'next' to move on to the next page of the test. You may use the 'next' and 'previous' buttons to scroll through the pages of the test.

The test will automatically finish after 30 minutes whether or not you have answered all the questions. You will be logged out of the test and your data uploaded. If you finish the assessment within 30 minutes you may click 'finish' to exit the test. Your data will be uploaded – you will not be able to return to the assessment.

3.2 Maths Paper

3.2.1 Progressive

If you are taking the 'Progressive Maths Paper' the questions get progressively more difficult throughout the paper:

- Questions 1-5 are at foundation level and worth 1 mark each
- Questions 6-15 are at intermediate level and worth 2 marks each
- Questions 16-20 are at advanced level and worth 5 marks each

You may choose which questions you answer and in what order.

3.3 Topics Covered

3.3.1 Progressive

- (a) Speed/Distance/Time
- (b) Calculating Fuel Rate
- (c) Basic Pythagoras

3.4 Formulas

Below is not an all-inclusive list; familiarising yourself with the topics outlined above should ensure you are aware of all the relevant formulas, including:

- (a) Speed = Distance / Time
- (b) Cosine and Sine rules
- (c) Pythagoras's theorem: $c^2 = a^2 + b^2$
- (d) Angles in a triangle add up to 180°
- (e) Trigonometry ratios

3.5 Example Questions

Examples of typical questions you can expect in the Advanced paper (or the final section of the paper if you are completing the Progressive paper) can be found below:

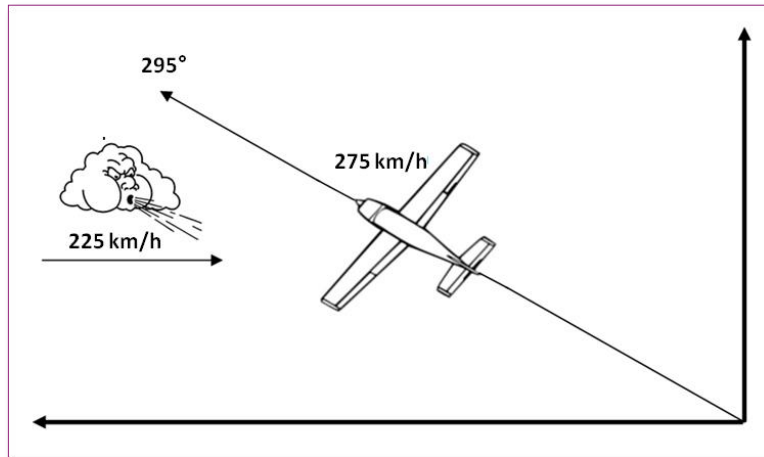

1. From a boat, the angle of elevation of the foot of a lighthouse on the edge of a cliff is 34° . If the cliff is 150 m high, how far from the base of the cliff is the boat.
2. If you are flying on a heading of 037° and make a left turn of 45° , what will be your new heading?
3. A letter is to be chosen at random from this set of letter-cards. What is the probability that the letter is an 'S'?

4. Look at the diagram of this cuboid. Calculate the length BG.

5. An aircraft has an airspeed of 275 km/h, and flies on a bearing of 295. The wind is blowing at a speed of 225 km/h from West to East. What is the head wind and what is the cross wind?

3.5.1 Example Math Questions – Answers:

- 1) 222 m
- 2) 352°
- 3) $\frac{3}{10}$
- 4) 13 cm
- 5) Head wind = 204 km/h
Cross wind = 95 km/h

4 Physics Stage

4.1 Instructions

Read the instructions carefully before you click 'next' to start the test. The test is 30 minutes long and the timer will commence when you start the test. Click 'next' to move on to the next page of the test. You may use the 'next' and 'previous' buttons to scroll through the pages of the test.

The test will automatically finish after 30 minutes whether or not you have answered all the questions. You will be logged out of the test and your data uploaded.

If you finish the assessment within 30 minutes you may click 'finish' to exit the test. Your data will be uploaded – you will not be able to return to the assessment.

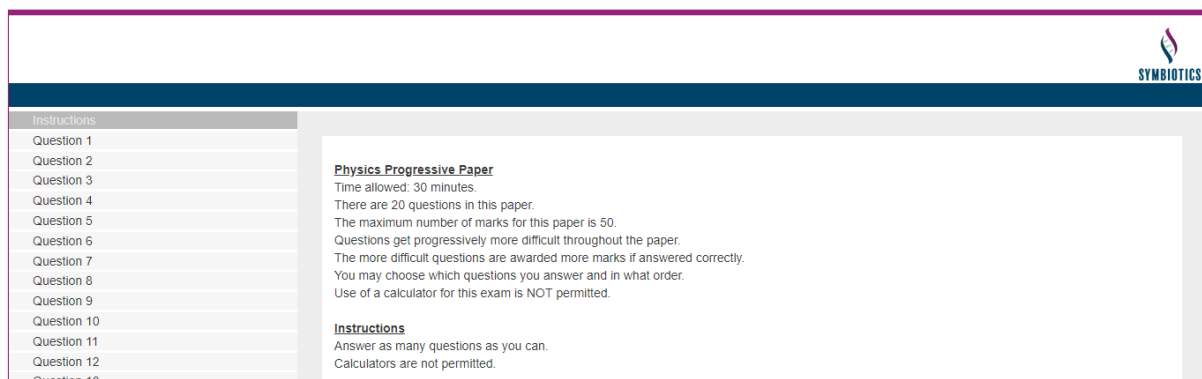

Figure 18: Physics Instructions Screen

4.2 Physics Papers

4.2.1 Progressive

You will be informed if you are taking the 'Progressive Physics Paper'. In this case the questions get progressively more difficult throughout the paper:

- Questions 1-5 are at foundation level and worth 1 mark each
- Questions 6-15 are at intermediate level and worth 2 marks each
- Questions 16-20 are at advanced level and worth 5 marks each

You may choose which questions you answer and in what order.

4.3 Topics Covered

4.3.1 Progressive

- (a) Properties of solids, liquids and gases
- (b) Magnets
- (c) Energy
- (d) Mass and weight
- (e) Waves – mechanical and electromagnetic
- (f) Basic circuitry
- (g) Units of measurement
- (h) The universe
- (i) Pressure
- (j) Acceleration
- (k) Force
- (l) Circuitry – current and resistors
- (m) Velocity
- (n) Levers
- (o) Springs
- (p) Balancing weights

4.4 Formulas

Below is not an all-inclusive list; familiarising yourself with the topics outlined above should ensure you are aware of all the relevant formulas, including:

- (a)
- (b) Speed = Distance/Time
- (c) Gas laws – Boyle-Mariotte law, Gay-Lussac law, Dalton's law
- (d) Newton's equations of motion
- (e) Hooke's Law
- (f) Bernoulli's Theorem
- (g) Ohm's Law

4.5 Example Questions

Examples of typical questions you can expect in the Advanced paper (or the final section of the paper if you are completing the Progressive paper) can be found below:

1. In an emergency stop, a driver applies the brakes in a car travelling at 24 ms^{-1} . The car stops after travelling 19.2m while braking. Calculate the average acceleration of the car during braking?

2. Calculate the current passing through a 6.8Ω resistor when it is connected to a 9V battery:

3. A sample of ideal gas has a volume of $1.50 \times 10^{-4} \text{ m}^3$ at a temperature of 22°C and a pressure of $1.20 \times 10^5 \text{ Pa}$. If the volume of the gas remains constant, calculate the temperature (in Kelvin not $^\circ\text{C}$) at which the pressure of the gas is $2.00 \times 10^5 \text{ Pa}$.
4. In a game of cricket, a ball leaves a bat in a horizontal direction from a height of 0.39 m above the ground. The speed of the ball is 35 ms^{-1} . The ball takes 0.28 seconds to reach the ground again. What horizontal distance has the ball travelled in this time?
5. In the diagram below, Aircraft A is flying East and maintaining a groundspeed of 340 kt (a $\text{kt} = \text{speed of } 1 \text{ NM / hr}$). Aircraft B is flying in the same direction as aircraft A but 210 NM ahead, maintaining a ground speed of 280 kt . Aircraft A will catch Aircraft B at Point 'X'. What distance will Aircraft B have travelled when this event occurs?

4.5.1 Example Physics Questions - Answers

- 1) -15 ms^{-2}
- 2) 1.32 A
- 3) 492 K
- 4) 9.9 m
- 5) 980 NM

5. FAST

Figure 19: FAST Assessment Screen

The FAST assessment stage is an online screening tool that takes approximately 15 minutes to complete. You will be required to:

- Follow verbal and written instructions
- Monitor a cockpit view and flight path
- Fly a 'crash' course
- Answer cognitive questions. The types of cognitive questions you will be asked are:
 - (a) Numerical Reasoning
 - (b) Verbal Reasoning
 - (c) Abstract Reasoning
 - (d) Perceptual Speed and Accuracy
 - (e) Spatial Relationship Reasoning
 - (f) Working Memory(Note: Examples of these types of questions can be found online)
- Provide self-analysis in the form of a mini-debrief

5.2 Step by Step Guide to FAST

5.2.1 Information on System Configuration and Requirements

Before you get started you must ensure that you have the necessary hardware to complete the assessment. Close down all other web and desktop applications. Find a quiet location free from distractions.

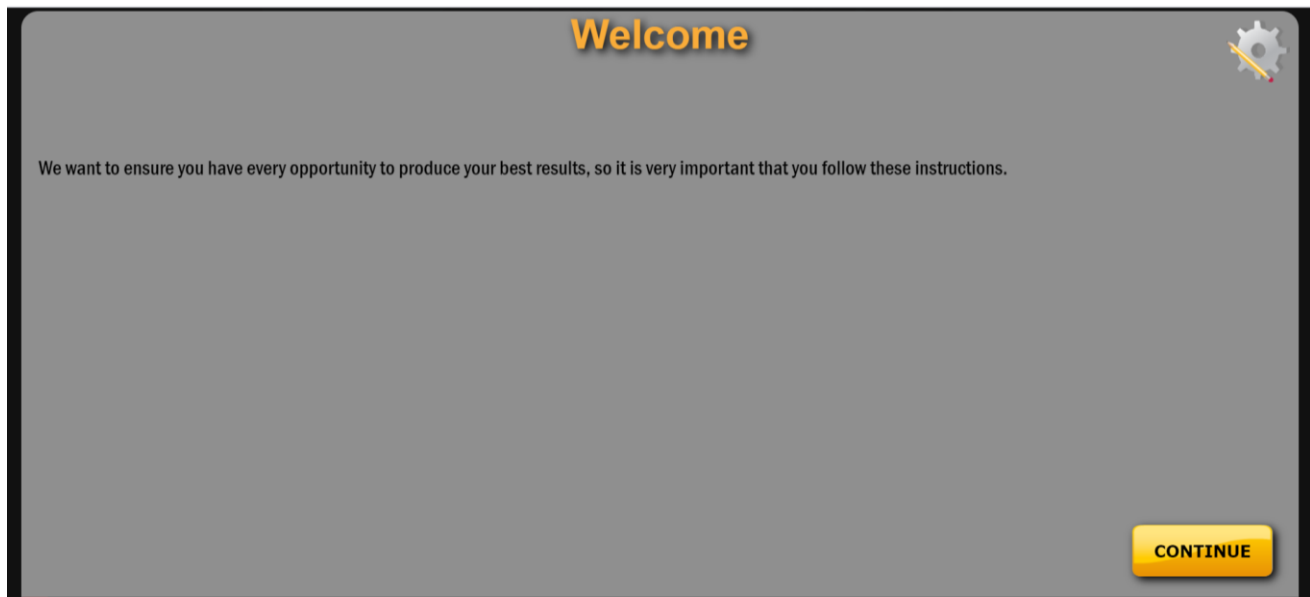

Figure 20: FAST Welcome Screen

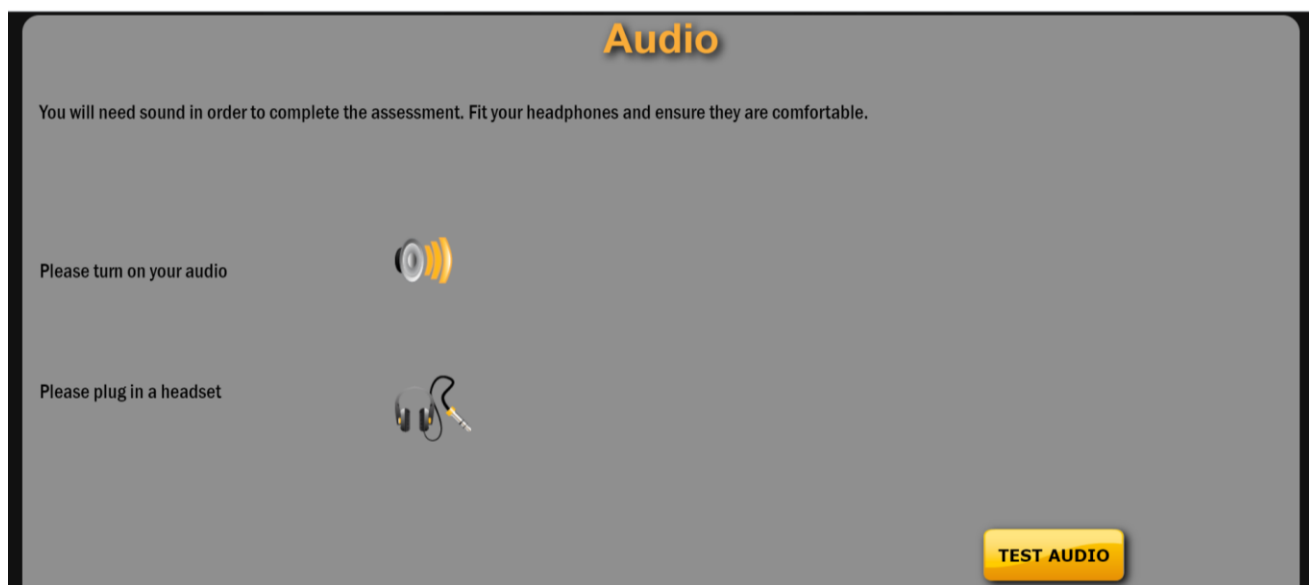

Figure 21: Explanation of Audio Requirements

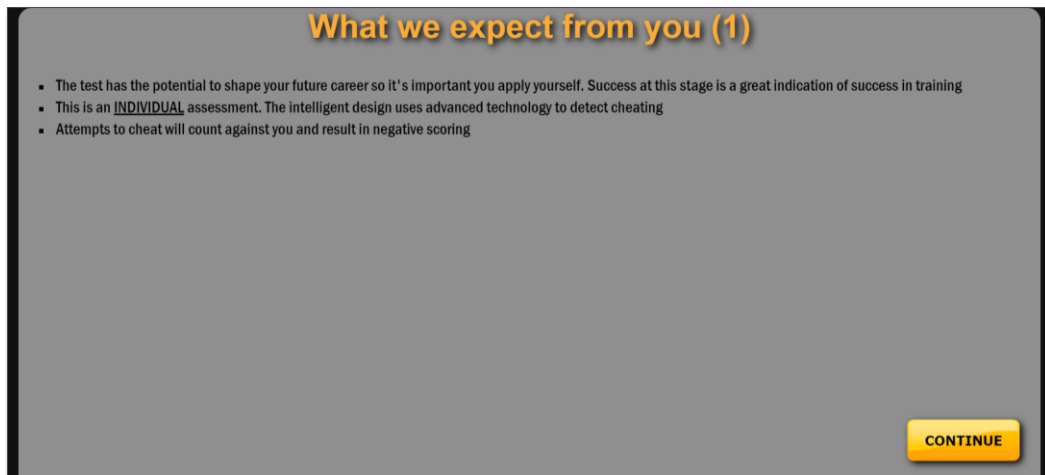

What you can expect

- There are 3 phases to this assessment:
 1. A Personality Questionnaire
 2. A Multi-tasking Assessment
 3. A Debrief Questionnaire
- You will receive a short brief before each phase
- The assessment will run on a rapid timeline
- The timer in the top corner shows your time remaining on the section

CONTINUE

Figure 22: FAST What to expect

What we expect from you (1)

- The test has the potential to shape your future career so it's important you apply yourself. Success at this stage is a great indication of success in training
- This is an **INDIVIDUAL** assessment. The intelligent design uses advanced technology to detect cheating
- Attempts to cheat will count against you and result in negative scoring

CONTINUE

Figure 23: FAST What we expect

What we expect from you

- We are looking for you to divide your attention between a range of tasks
- Have a go at as much as you can... It is designed to be challenging
- You will have to adopt a strategy to help you manage the busy scene
- You will have to detect visual and auditory information
- Neither task is more important than the other
- You will now be briefed on the process
- Press **START** to begin...

START

Figure 24: FAST What we expect

5.2.2 Information on the FAST System

Look out for the timer on some pages. They will push you through the assessment. When this expires the assessment will progress to the next page.

You will be briefed on all stages of the assessment as you progress. We will help you configure your computer appropriately and ensure that you are ready for take-off.

5.2.3 Information on the FAST Assessment

Physical Assessment

14

- This is a 3 minute multi-tasking assessment
- There are 4 elements:
 - Monitoring Task: Watch and listen to the video in the cockpit
 - Questions: Answer a rapid series of questions
 - Reporting: Report aircraft and waypoints and monitor your route
 - Flight Path: Divert the aircraft away from the oncoming blocks
- Split your attention between all tasks as best you can
- Try to monitor all areas of the screen. The exercise will get very busy
- You will be asked questions about the video in the debrief so pay attention
- Each element will now be explained

Figure 25: Information on Physical Assessment

Cockpit Monitoring

19

- The view from the cockpit shows a flight recording
- The pilot will fly a route to visual markers (waypoints)
- Keep referring back to this cockpit window
- LOOK out for Aircraft, LISTEN to Air Traffic Control, REMEMBER what you see on the ground - You will be asked questions about this in the final part of the assessment

Figure 26: Information on Cockpit Monitoring

Flight Path

18

- You must divert the aircraft away from the oncoming blocks
- Push the Up or Down arrow keys on your keyboard
- If you crash into a block the aircraft will glow **RED**
- The course will get busy. Try to split your attention
- Try to limit the number of crashes and achieve the longest flight time you can

Figure 27: Information on Flight Path

Reporting

19

- Watch the video and observe the cockpit display as instruments may activate - You'll need to report on these in the debrief

- Every time you see an aircraft in the video press the **GREEN** button
- The map in the middle screen depicts the route being flown
- Every time you pass over a waypoint press the **RED** button

Figure 28: Information on Reporting

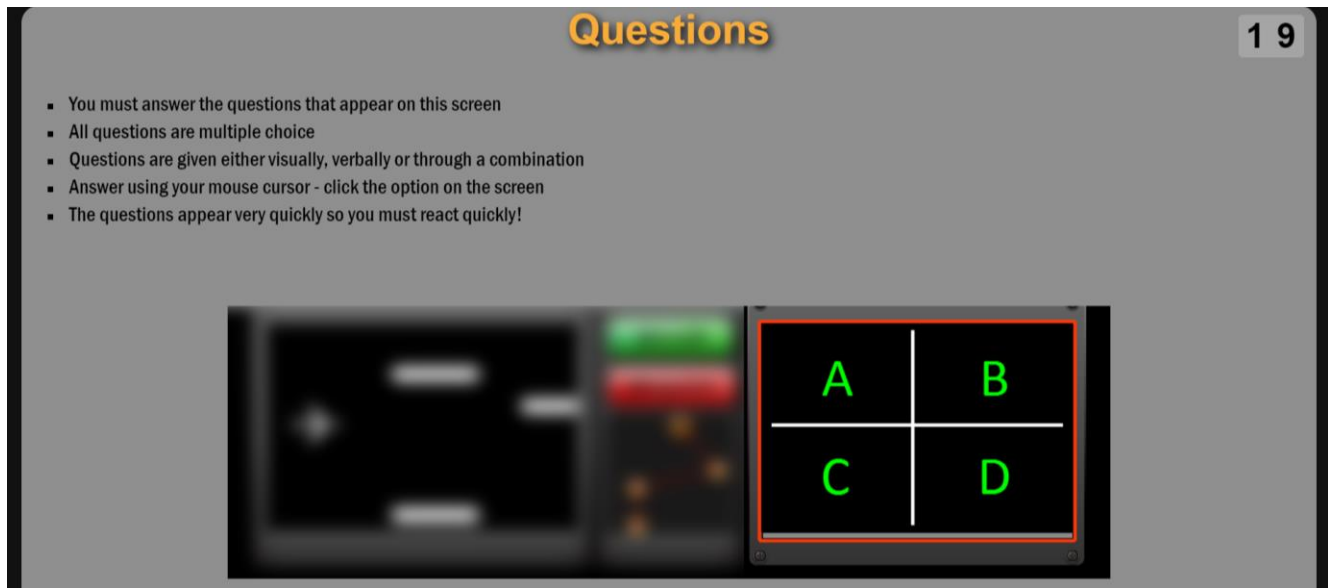

Figure 29: Information on Questions

The final part of the test is a debrief section.

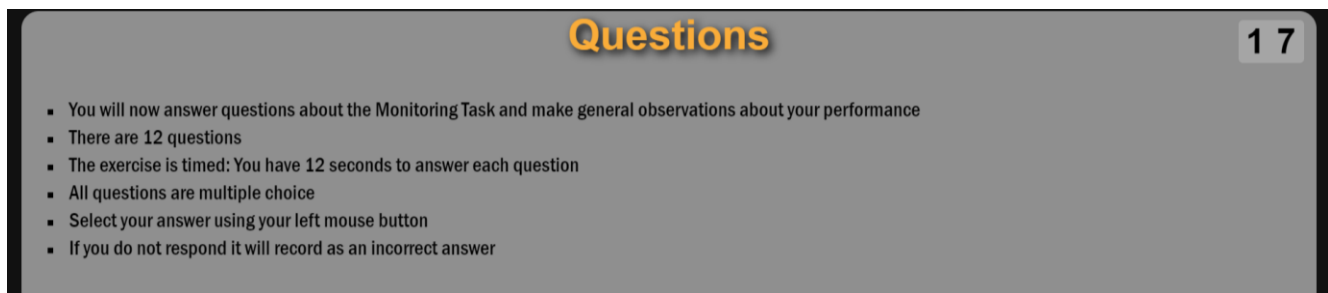

Figure 30: FAST Test Debrief Instructions

6. Cognitive Testing

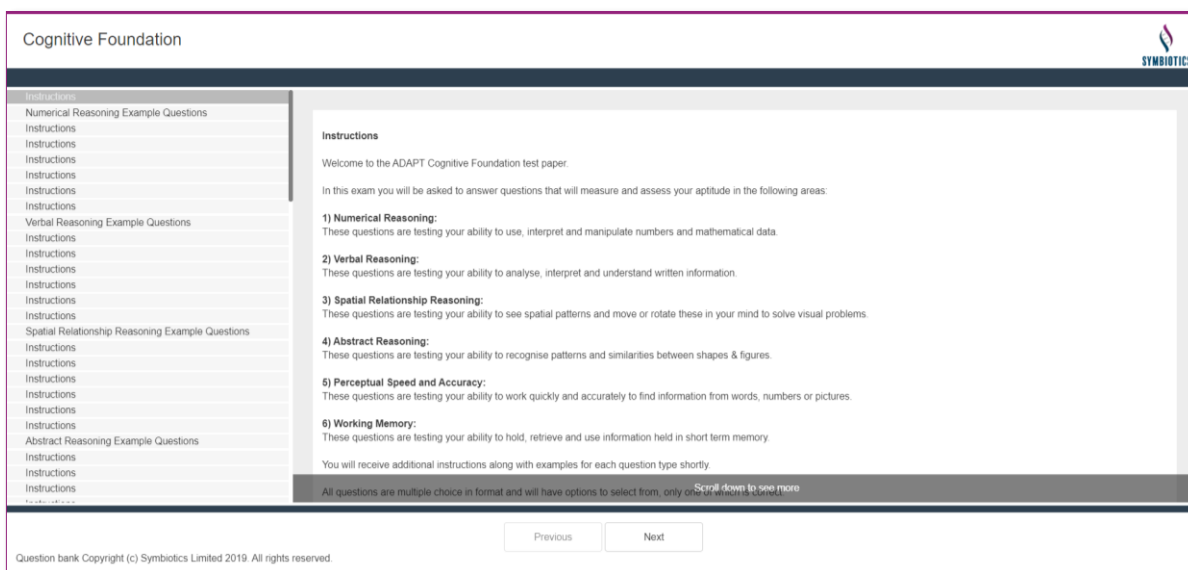

Figure 31: Cognitive Reasoning Instruction Page

6.1 Information on Topics Tested

This exam will measure and assess your aptitude some or all of the following areas, and last approximately 30 minutes:

- | | |
|---------------------------------------|--|
| Numerical Reasoning | These questions are testing your ability to use, interpret and manipulate numbers and mathematical data. |
| Verbal Reasoning | These questions are testing your ability to analyse, interpret and understand written information. |
| Spatial Relationship Reasoning | These questions are testing your ability to see spatial patterns and move or rotate these in your mind to solve visual problems. |
| Abstract Reasoning | These questions are testing your ability to recognise patterns and similarities between shapes and figures. |
| Perceptual Speed and Accuracy | These questions are testing your ability to work quickly and accurately to find information from numbers or images. |
| Working Memory | These questions are testing your ability to hold, retrieve and use information held in short term memory. |

You will receive specific instructions along with example questions for each question type shortly. All questions are multiple choice in format and will either have three or four answer options to select from, only one of which is correct.

You will need to read each question carefully before responding. You will not be able to go back to change your answers: you will need to work accurately but quickly in order to complete the test within the time limit.

Each question set will have 6 questions, making a maximum total of 42 questions in the paper.

6.2 Foundation Cognitive Test Examples

6.2.1 Numerical Reasoning

All questions will be multiple choice in format and will have 4 answer options available, only 1 of which is correct. Question types include:

- 1) Basic Algebra
- 2) Sequences
- 3) Fractions, Decimals and Percentages
- 4) Arithmetic
- 5) Conversions
- 6) Speed / Distance / Time calculations

For example:

Calculate how many miles there are in 64 km.

- a) 40 miles
- b) 48 miles
- c) 45 miles
- d) 50 miles

Answer = A

6.2.2 Verbal Reasoning

All questions will be multiple choice in format and will have 3 answer options available, only 1 of which is correct. Question types include:

- 1) Anagrams
- 2) Aviation Acronyms
- 3) Connections
- 4) Synonyms
- 5) Antonyms
- 6) Logic

For example:

Select the word most opposite in meaning to regular.

- a) Normal
- b) Usual

c) Unusual

Answer = C

6.2.3 Spatial Relationship Reasoning

For these questions, a question image will be displayed for 5 seconds only.

This image will then be replaced with 4 answer option images.

Only 1 of these 4 images correctly answers the question.

You will not be able to view the original question image after the initial 5 seconds.

Question types include:

- 1) Reflection
- 2) Rotation
- 3) Cubes
- 4) Directions
- 5) Map
- 6) Radars meet

For example:

Select the option that shows a reflection of this image in the red line:

Answer = C

6.2.4 Abstract Reasoning

All questions will be multiple choice and will have 4 answer options available, only 1 of which is correct.

Question types include:

- 1) Select the odd image
- 2) Complete the sequence
- 3) Complete the statement
- 4) Complete the grid

For example:

Select the odd image that does not fit with the other images:

Answer = B

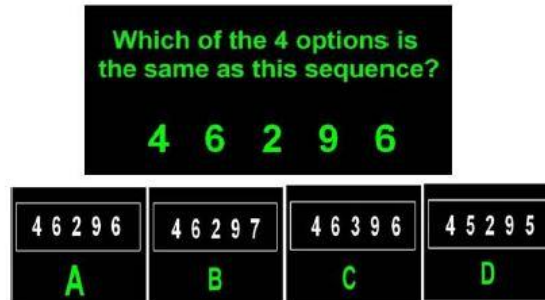

6.2.5 Perceptual Speed and Accuracy

For these questions, you need to respond as quickly as possible – your reaction times to complete each question will be recorded by the system. Question types include:

- 1) Match sequence - numbers
- 2) Match sequence - letters
- 3) Cockpit dials
- 4) Sorting data
- 5) Scanning
- 6) Matrix

For example:

Select the sequence that exactly matches the one below:

Answer = A

6.2.6 Working Memory

For these questions, a question image will be displayed for 5 seconds only.

This image will then be replaced with 4 answer option images.

Only 1 of these 4 images correctly answers the question.

You will not be able to view the original question image after the initial 5 seconds.

Question types include:

- 1) Counting task
- 2) Memory span
- 3) Dot memory
- 4) Match sequence
- 5) Match image
- 6) Radar location

For example:

Select the sequence that exactly matches the one below:

Answer = A

7. Finishing the Assessment

When you have finished each of the tests you will see a screen displaying the specific list of tests that you are undertaking, highlighting which ones are complete:

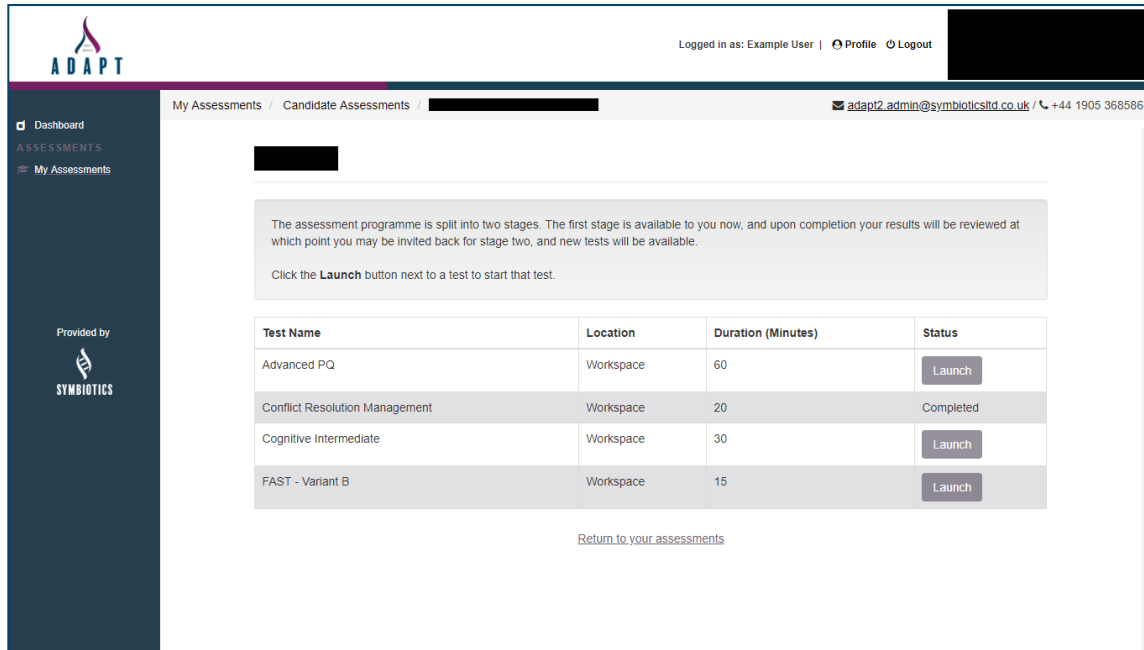

Figure 32: Central Screen.

Once a test has been completed click on the “Return to your assessments” link to access your next test. When you have completed all the tests please click on “Logout” at the top of the web page. This will upload your results to Symbiotics Ltd. Your results report will be generated and sent to the Academy.
